Jesus cures the blind man.

What might the virus teach us?

That we are interconnected.

We all share the human condition.

Social distancing is NOT our norm, but rather an extreme necessary precaution.

in a recent climate of fear and division, there ae more important ties of necessary unity: Some auto makers are switching production of autos to ventilators!

Good for them!

And so we pray:

Saint Joseph the Worker,

bless and protect laid off workerss.

Saint Patrick, the former slave,

bless and protect the marginalized.

Blind man of the Gospel,

remove our blinders

that we may see,

how much we all

need each other.

Amen
