

## **Transfiguration**

**Right now my arms and scalp look like a war zone, covered with ugly red blotches. It is a skin cancer preventative. But as ugly as it looks now, my dermatologist assures me soon my skin will radiate with new life. I will be transfigured.**

**Lent can be like that, a transfiguration.**

**We are in its first lap.**

**Buckle up, and keep going.**

**The Christ light burns ahead of us as we move forward so we may be enlightened.**

**The prophets lead the way as we move through a jungle of misinformation and idol worship.**

**Yes, there is a new idol and he is not fading away.**

**A majority of Christian Evangelicals now believe that Donald Trump "has been sent by God."**

**Pope Francis in "*Let Us Dream*" warns about Fundamentalism and he echoes the prophets who warn of idol worship.**

**2nd Sunday, Lent, Feb. 28 2021**
