

“Vaccination is a Moral Obligation.”... Pope Francis. Suddenly we move from the Baptism of Jesus to his first public event and it is a Party! This is not untypical. Whereas John The Baptist refrained from parties, Jesus did not. This very day, Jesus is the Host at our Eucharistic table. Not only that, but symbolically he is the bride groom and we are the bride. And he serves us the best of wines. In this Covid time of restricted table fellowship, pray the the Spirit Of God moves among the stubborn unvaccinated and moves them out of their stubborn refusal to accept science and common sense. As Pope Francis reminded us this week vaccination is a MORAL OBLIGATION for the good of selves and the love of our neighbor.
